Research Interests: Adult Nursing, Fever Research, Long-term care

Academic Distinctions:

Associate Professor, Graduate Institution of Nursing, CMU (2014)

Appointments:

2009-2011: Assistant Professor: Mackay Junior College of Medicine, Nursing, and Management

2011-2014: Assistant Professor: Graduate Institution of Nursing, CMU

2014-present: Associate Professor: Graduate Institution of Nursing, CMU

Research Interests:

Dr. Lu had been working in clinical surgical ward for 5 years before getting to her Ph.D. degree. She instrestred in nursing research while in university, and has published more than 10 papers in reputed journals. Her major studies are febrile responses of adult patients (older adults, critical illness patients), Evidence based fever education program and long term care.

Representative Publications:

Lu, Shu-Hua., Po-Jui Yu., & Yu-Tzu Dai * (2016).Fever presentation and associated factors in patients with healthcare-associated bacteremia, *International Journal of Nursing Practice*, 22(1):98-107.

Dai, Yu-Tzu., Lu, Shu-Hua., Chen, Yee-Chun., & Ko, Wen-Je (2015) Correlation between body temperature and survival rate in patients with hospital acquired bacteremia: A prospective observational study, *Biological Research for Nursing*,17(5):469-477.

Lu, Shu-Hua., Yee Chun Chen., Yue Cune Chang., & Chung Jen Yen., & Yu Tzu Dai (2013)*Effect of age on febrile response in patients with hospital-acquired bloodstream infection, *Geriatric Nursing*, 34(5):366-372.

Dai Yu Tzu., & Lu, Shu-Hua (2012) What's missing for evidence-based fever management? Is fever beneficial or harmful to humans? *Internal Journal of Nursing Studies*, 49(5):505-507.

Lu, Shu-Hua., Leasure, A.R., & Dai Yu Tzu (2010) A systematic review of body temperature variations in older people. *Journal of Clinical Nursing*,19(1):4-16.

Research Interests: oncology nursing, end of life care, family caregiver support

Academic Distinctions:

Distinguished Teaching Professor, School of Nursing, CMU (2014)

Appointments:

1989-2007: Clinical Nurse: Taipei Veterans General Hospital, Taiwan.

1997-2000: Clinical Nurse: Taichung Veterans General Hospital, Taiwan.

2000-2003: Clinical Nursing Teacher: Hungkuang University, Taiwan.

2011-2015: Assistant Professor: School of Nursing, CMU

2015-present: Associate Professor: School of Nursing, CMU

Research Interests:

Dr. Lee had been working in clinical oncology ward for 12 years before getting to her Ph.D. degree. She instresred in nursing research while in university, and has published more than 10 papers in reputed journals. Her major studies are palliative care and end of life care among patient and family caregiver. She recently worked on family caregiver support with terminally ill patient studies, and she received the NIH funding from Taiwan's government. Dr Lee also has been serving as an editorial board member of repute in Taiwan.

Representative Publications:

1. **Kwo-Chen Lee**, Jia-Jean Yiin, Yann-Fen Chao(2016). Effect of an Integrated Caregiver Support Program on the Caregiver Burden for Terminal Stage Cancer Patients: a cohort and quasi-experimental clinical trial. *International Journal of Nursing Studies*. (Accepted)

Research Interests: Acupressure, Body constitution of Traditional Chinese Medicine

Academic Distinctions:

Distinguished Teaching materials, School of nursing, College of Health Care, CMU (2012)

Distinguished Teaching materials, School of nursing, College of Health Care, CMU (2014)

Appointments:

1981-1982: Registered Nurse: Taipei Veterans General Hospital, Taipei, Taiwan.

1982-1983: Registered Nurse: Taichung Veterans General Hospital, Taichung, Taiwan.

1983-1991: Assistant Instructor: School of Nursing, CMU

1991-2008: Instructor: School of Nursing, CMU

2008-present: Associated Professor: School of Nursing, CMU

Research Interests:

My research theme interests in Traditional Chinese medicine (TCM) nursing. I am studying the acupressure and body constitution in nursing for more than 10 years. For example: Applying acupressure in premature infants or hypertensive patients or after surgery patients, develop body constitution scale of TCM. I had published many TCM nursing related articles. The nearest publications were as following:

Representative Publications:

Effectiveness of Acupressure on the Taichong Acupoint in Lowering Blood Pressure in Patients with Hypertension: A Randomized Clinical Trial. Gan-Hon Lin, Wei-Chun Chang, Kuan-Ju Chen, Chen-Chen Tsai, Sung-Yuan Hu, and **Li-Li Chen**. **Evidence-Based Complementary and Alternative Medicine**. 2016 ;2016(1549658):1- 9.

The effectiveness of regular leisure-time physical activities on long-term glycemic control in people with type 2 diabetes: A systematic review and meta-analysis. Lee-Wen Pai, Tsai-Chung Li, Yueh-Juen Hwu, Shu-Chuan Chang, **Li-Li Chen***, Pi-Ying Chang. **DIABETES RESEARCH AND CLINICAL PRACTICE**. 2016Mar;113(March):77-85.

Musculoskeletal pain in people with and without type 2 diabetes in Taiwan: a population-based, retrospective cohort study. Lee-Wen Pai, Chin-Tun Hung, Shu-Fen Li, **Li-Li Chen***, Yueh- Chin Chung, Hsin-Li Liu. **BMC MUSCULOSKELETAL DISORDERS**. 2015Nov;16:364.

SEED: the six excesses (Liu Yin) evaluation and diagnosis scale. Pei-Jung Chiang, Tsai-Chung Li, Chih-Hung Chang, **Li-Li Chen**, Jun-Dai Lin, Yi-chang, Su.* **Chinese Medicine**. 2015 Oct;10(30):1-11.

The effect of positioning on preterm infants' sleep-wake states and stress behaviors during exposure to environmental stressors. Niang-Huei Peng, **Li-Li Chen**, Tsai-Chung Li, Marlaine Smith, Yu-Shan Chang, Li-Chi Huang*. **J of Child Health Care**. 2013; 18(4):314-25.

Self-efficacy of first aid for home accidents among parents with 0- to 4-year-old children at a metropolitan community health center in Taiwan. Yu-Li Wei, **Li-Li Chen**, Tsai-Chung Li, Wei-Fen Ma, Niang-Huei Peng, Li-Chi Huang*. **Accident Analysis and Prevention**. 2013. 52: 182-187.

Ya-Ling Tzeng

Research Interests: Maternity Nursing; Women's Health; Gender in Nursing Education; Chinese Medicine in Nursing

Academic Distinctions:

Nursing Research Award "Excellent", Taiwan Union of Nurses Association (2009)

Distinguished student mentor, China Medical University (2011)

Nursing Research Award "Excellent", Taiwan Union of Nurses Association (2017)

Appointments:

2009-present: Editorial Board Member, The Journal of Nursing, Taiwan Nurses Association

2010-present: Board Member, The Honor Society of Nursing, Sigma Theta Tau International, Lambda Beta-at-Large Chapter in Taiwan, R.O.C

2000-2012: Adjunct Nursing Supervisor, Department of Nursing, China Medical University Hospital, Taiwan

2008-2012: Associate Professor, School of Nursing & Graduate Institute of Nursing, CMU

2012-present: Adjunct Nursing Advisor, Department of Nursing, China Medical University Hospital, Taiwan

2013-present: Board Member, The Nurses Association of Taichung City

2015-2017: Professor (joint appointment), Department of Nursing, Asia University, Taiwan

2012-present: Director, School of Nursing, CMU

2015-present: Professor, School of Nursing & Graduate Institute of Nursing, CMU

Research Interests:

My research interests are summarized into two parts: one is perinatal women's experience; the other is gender issues in nursing. My main study focuses on the predictors of symptoms (fatigue, anxiety, and depression) and effective interventions for the relief among perinatal women. I am also interested in gender issues in nursing education. I expect to explore the phenomena of gender issues in nursing as well as to integrate gender awareness in nursing education.

Credentials:

Chen Shen Medical & Dental University, Taiwan, BSN, 1986

SUNY Buffalo, M.Ed., USA, 1990

University of Montana, Ed.D., USA 2004

Specialty: Pediatric nursing, neonatal care, patient education, leadership

Academic Distinctions:

The best teacher, College of Health Care, CMU, Taichung, Taiwan (2008)

The best advisor, China Medical University, Taichung, Taiwan (2010)

The best teacher, College of Health Care, CMU, Taichung, Taiwan (2013)

The best teacher, College of Health Care, CMU, Taichung, Taiwan (2014)

The SUPER teacher, Taichung Union Association, Taichung, Taiwan (2016)

Appointments:

1990-1992: Instructor, Nursing Dep., Chen Shen Med University, Taichung, Taiwan

1992-2005: Instructor, School of Nursing, CMU, Taichung, Taiwan.

2005-2012 : Assistant professor, School of Nursing, CMU, Taichung, Taiwan.

Research Interests:

The research themes are divided to three parts: preterm infants' care and early intervention in children care: parents' ability of preterm infant care and first aid, fall prevention, patients' self-care in patient education: skill-mixed model, professional life quality in nursing working environment. Several areas of the research are actively studied in my research terms.

Representative Publications:

Research Interests:

My major is in neurological and geriatric nursing. Sleep related studies are my major research area. Focused populations include sleep problems and care in older adults with diabetes, stroke and shift nurses. Current studies are extended to sleep management studies by applying wearable physical tracker and intelligent cloud-computing health system.

Representative Publications:
